# Tool solutions for straightening machines – Wire materials and material recommendations for straightening dies, feed rollers and guide bushings

Material to be straightened	Straightening dies		
<b>Aluminum</b> 	 Plastic		
<b>Reinforced steel cold-rolled</b> 	 Chilled cast iron	 Tungsten carbide	
<b>Reinforced steel hot-rolled</b> 	 Tungsten carbide		
<b>Binding wire</b> 	 Cast iron	 Tungsten carbide	
<b>CO<sub>2</sub> welding wire</b> 	 Cast iron		
<b>Precious metals</b> 	 Plastic		
<b>Stainless steel</b> 	 Hard bronze	 Plastic	
<b>Steel, bright</b> 	 Cast iron	 Bronze	 Ampco
<b>Steel, copper-plated</b> 	 Cast iron	 Hard bronze	 Plastic
<b>Steel, galvanized</b> 	 Cast iron	 Tungsten carbide	 Hard bronze
<b>Spring steel</b> 	 Cast iron	 Tungsten carbide	
<b>High-speed steel</b> 	 Cast iron		
<b>Alloys</b> 	 Plastic		
<b>Prestressing steel</b> 	 Cast iron	 Tungsten carbide	 Chilled cast iron

Feed rollers	Guide bushings
 Plastic	 Plastic
 Tool steel  Tungsten carbide	 Tool steel
 Tool steel	 Tool steel
 Plastic  Hard bronze	 Plastic
 Tool steel	 Tool steel
 Tool steel  Hard bronze	 Tool steel
 Tool steel  Tungsten carbide	 Tool steel
 Tool steel	 Tool steel
 Plastic  Hard bronze	 Plastic
 Tool steel  Tungsten carbide	 Tool steel
